HOANG VU

Full-stack Developer

ABOUT ME

I am an IT student at LAB University of Applied Sciences where I have learned coding for over 3 years. With my passion for technology, I also undertook training at CyberSoft Academy. During the process, I have completed several full-stack projects which have helped me to improve my skills and gain a profound understanding of web development. I'm also a fast learner and a team player. I'm excited to learn more and bring my skills to support your business.
